VIENNA HOUSE

BY WYNDHAM
ANDEL'S LODZ

The conference center at Vienna House by Andel's Lodz is located on the ground floor, to the left of the reception desk, at the end of the corridor.

It includes 7 conference rooms: each can be divided in half and adjusted to the meeting formula. In this way, space is created for smaller events such as board meetings, trainings, seminars (Cotton, Velour, Velvet, Silk, Damask and Cashmere rooms). The largest Satin room and a spacious foyer make it possible to organize large events: conferences, congresses, conventions – all in the unique, industrial interiors of the famous textil.

SETTINGS OF TRAINING ROOMS

Training rooms at Vienna House by Andel's Lodz can be arranged according to your needs – do you want to accommodate as many people as possible in the room or do you want to arrange tables for a banquet conveniently? As standard, you can choose from theater, school, cocktail, U-Shape and banquet layouts – see what the capacity of the rooms is in each of these settings. Don't see one here that suits you? Please contact the conference department for more information. Also check out some ideas for creative settings!

A separate part of the conference facility at Vienna House is the ballroom located on the 4th floor, unique in the whole of Łódź. The interior of the hall is nearly 1,000 m² and is divided into two parts, so only half of it can be used. It opens onto a spacious foyer with

a bar and banquet kitchen – you can provide your guests with a served meal or choose buffet stations. The hall has access to daylight thanks to two rows of windows, but they can be completely darkened and you can choose one of the many variants of colorful event lighting. A string of elevators (including a freight elevator in the back room) enables convenient communication with the ground floor.

This versatile event space can be used as a place for fashion shows, artistic events, exhibitions, galas, or product promotions – also for the automotive industry. Thanks to the freight elevator, you can even bring a car up to 8 tons (or an elephant – to choose from). It is also the largest banquet hall in Łódź, ideal for large-scale events, for large groups. For smaller gatherings or private events, conference rooms, spacious restaurant rooms on the ground floor or banquet-arranged suites will be optimal.
